

**Special Programs Study Group  
Meeting Notes: February 24, 2009**

Chief Financial Officer Kurt Subra spoke with the study group about the facility planning process and the reasons why we will likely not expand the footprint at most schools (limited funding and the issues created with the City when the buildings are expanded). He also shared some trend numbers for special education programs.

Special Education Director Angie Calhoun shared additional trend data for special education enrollment and a projection of future needs in special education.

The committee discussed the information and decided to look how her projections will impact each school in the future.

We will meet on March 5 at 6:30 in the FM room.
