November 18, 2021

The Board of Education and Residents
West Des Moines Community School District

Ladies and Gentlemen:

The following report is a comprehensive financial record of the District for the fiscal year ended June 30, 2021. The report is a reflection of the conditions which have enabled the West Des Moines Community School District to maintain a favorable financial position despite state and federal budget constraints and the related impact on local school districts across our state as well as the world wide COVID-19 pandemic.

The shared vision of the District states, "The West Des Moines Community School District will be a caring community of learners that knows and lifts every child. We will inspire joy in learning. Our schools will excel at preparing each student for his or her life journey."

This shared vision provides the foundation of our District's financial planning. Meeting the educational needs of our students despite state and federal budget constraints is no simple task. The educational success of the West Des Moines Community School District is due to many factors including:

- An outstanding and effective Board of Education.
- A very supportive community with high expectations for outstanding schools.
- Supportive parents who have high expectations for their children.
- A team of outstanding and dedicated teachers, staff and administrators.
- Students who understand the importance of obtaining a quality education.

As you review the information included in this report, please be sure to contact us if you have any questions or suggestions. Our focus is upon the learning needs of <u>all</u> of our students. With your help and support, we will continue to be an excellent system of schools. We can all take pride in the outstanding success of our students as they graduate as learners prepared for life.

Sincerely,

Lisa Remy, Ed.D. Superintendent

Kisa M. Reny

The Board of Education and Residents West Des Moines Community School District

The Comprehensive Annual Financial Report of the West Des Moines Community School District (the District) for the fiscal year ended June 30, 2021 is submitted herewith. The District is an independent entity governed by a seven-member board. Responsibility for the accuracy and completeness of the presentation, including all disclosures, rests with the officials of the District's Administrative Services Division. We believe that the data is accurately presented, in all material respects; that the data is presented to fairly set forth the financial position and results of operations of the District as measured by the financial activity of the various funds; and that all necessary disclosures have been included in order to enable the reader to gain the maximum understanding of the District's financial affairs.

The District was required to undergo a single audit in conformity with the provisions of the Single Audit Act Amendments of 1996 and Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance), Audits of States and Local Governments and Nonprofit Organizations. Information related to this single audit, including a schedule of expenditures of federal awards, the independent auditor's report on internal control over financial reporting and on compliance and other matters, independent auditor's report on compliance with requirements that could have a direct and material effect on each major program and on internal control over compliance, and a schedule of findings are included in the single audit compliance section of this report.

This report includes all funds of the West Des Moines Community School District. The District provides a full range of programs and services including instructional; administrative; transportation; food service; maintenance of sites and facilities; custodial; clerical; extra, co-curricular and athletic activities; and community education.

Management is responsible for preparing a Management's discussion and Analysis. This discussion follows the independent auditor's report and provides an assessment of the District's finances for 2020.

Profile of the Government

In Iowa, school districts operate with local control and have fiscal independence from other government entities. The District operates in compliance with the accounting principles generally accepted in the United States of America (GAAP) and currently prepares its financial statements per the Governmental Accounting Standards Board (GASB) Statement No. 34.

The West Des Moines Community School District serves more than 58,000 people who live in the western portion of Polk County-West Des Moines, Clive, parts of Urbandale and Windsor Heights and nearby rural areas. Covering 36.6 square miles, the District has grown up around a former railroad center, Valley Junction, and the farmland north and south of the Raccoon River. The District experienced rapid growth up until the fall of 1975 when enrollment reached 6,726 students. Enrollment gradually declined to 5,825 students in the fall of 1982, but increased annually (except for September 1999) through September 2002, to 8,776 students. Enrollment declined more than 200 students during fiscal years 2004 and 2005. The District's enrollment projections estimate slightly declining enrollments averaging approximately 43 students for each of the next three years. In October 2019 and 2018, the District's Official Enrollment increase by 49 and 22 students, respectively. However, in October 2019, the number of students served within the District increased by 130 which is primarily due to fewer open enrolled out students and an increase in the number of students open enrolled into the District.

COVID-19 reversed this increasing official enrollment trend in October 2020 with official enrollment decreasing by 169 students, but students served only decreased by 85 students as open enrolled out students declined by 85 students and open enrolled in students increased. The October 2021 official enrollment reflects a decrease of 46, but students served increased by 41, largely due to open enrollment.

The District operates thirteen schools, a maintenance/transportation/warehouse facility, a stadium and the Learning Resource Center (administrative offices). Phenix Elementary School was closed starting in fiscal year 2014-15 as part of the District's budget reductions and subsequently sold during the year. During 2015-16, the District sold the Old Walnut Creek Campus at appraised value. All current real property is used for instructional or support services. The West Des Moines Community School District provides a comprehensive Pre-K-12 educational program and an extensive Community Education program.

Economic Condition and Outlook

The District is located in the central part of the state, within the larger Des Moines metropolitan area and ranks as one of the top growth areas of the state. The economic condition and outlook of the District have remained strong during the past ten years, following several years of very high economic growth and steady enrollment growth. This growth has had a positive effect on employment and the District's tax base. The District's tax base increased at an average annual rate of approximately 3.67% over the past 15 years. In fiscal year 2021, the District experienced an increase in valuation of 1.50%.

The tax base is expected to grow more slowly in the next five years.

Retail sales, building permits and population increases in the western suburbs have generally exceeded that of any other location in the metropolitan area or in the state of Iowa. Growth in the Des Moines area suburbs is expected to exceed the state average. A large percentage of these increases are occurring outside the District's boundaries.

In recent years, the state of lowa faced an economic downturn that severely hampered its ability to fund schools at the same level as in prior years. After two consecutive years of 4.5% declines in the state's net receipts, in 2011, the state's net receipts increased by 5.8%. In light of these challenging economic times, the District has publicly discussed operating budget concerns looking ahead to the next five years. In May 2014, the Board approved a plan to reduce \$2.7 million in General Fund Budget in the 2014-15 fiscal year including the closing of Phenix Elementary School. On March 2021, the Board made budget costs totaling \$3.03 million effective July 1, 2021, in response to student enrollment and low state supplement amount. The Board of Education continues to implement the District's long-range facilities plan, which was approved in March 2010. In addition, the Board has directed the Administration to review this plan so that additional Revenue Bonds are not necessary to finance the plan and the Administration has since presented a plan to make \$12.3 million in scope reductions to this plan.

The 2020-21 school year included many stories of success. The shared vision and five guiding principles continue to be the foundation for curriculum development, integration of technology, community involvement and the learning process.

The shared vision is carefully considered in all District efforts: "The West Des Moines Community School District will be a caring community of learners that knows and lifts every child. We will inspire joy in learning. Our schools will excel at preparing each student for his or her life journey."

The Stretching Minds program continued serving many elementary and junior high students during the summer. The program targets students most likely to benefit from additional opportunities in reading, mathematics and community learning.

The District has spent a significant amount of 2018-19 evaluating districtwide building structures for the purpose of creating effective learning spaces, also known as the Framework. Subsequent to June 30, 2019, the Board approved Framework Option D (Option D) which architects estimate will cost approximately \$167,000,000. In addition, the District is in the process of reviewing each school buildings envelope along with its mechanical, electrical and plumbing needs. However, when the estimated cost of the building envelop projects were added to Option D, it was determined too costly and the Board rescinded Option D and settled on a new scope known as Phase 2.1 with an estimated cost of \$105,300,000. On September 28, 2020, the Board approved the Comprehensive Master Facility Plan (Plan) with an estimated ten-year cost of \$234,300,000 which includes an annual estimated inflation factor of 4.00%.

On September 12, 2017, the taxpayers, with an 82% approval, voted to extend the Voted Physical Plant and Equipment Levy (VPPEL) for another ten-year period starting with fiscal year ending June 30, 2022. In 2019, the VPPEL generated \$6.7 million. The VPPEL and Statewide Sale Tax mentioned above will be the two sources of revenue to finance the Plan.

On November 5, 2019, with 86% approval, the community approved the District's Revenue Purpose Statement which will allow the District to use anticipated sales tax revenues to finance the Plan.

In September 2020, the District sold \$50,225,000 of General Obligation School Capital Loan Notes, Series 2020A (Notes), which mature serially over ten years at a net interest rate of .8266% to begin financing the Plan. Future bond issues are anticipated over the next ten years to finish financing the Plan. Repayment of the Notes will come from the Voted Physical Plant and Equipment Fund.

Athletic Report for 2020-21 School Year

The Valley High School Tigers proved once again why its teams are annually in the "championship contenders" conversation in the State's largest classification. The Tigers finished 4th in the Des Moines Register All-Sports (large school division) Standings. Valley has routinely finished in the top three every year since all-sport point tracking began. Valley has won the award seven times. Last year 10 different Valley teams finished in the Top 10 in their respective tournaments, with 2 State Championships, and 7 teams finishing in the top 5. Valley squads also totaled an incredible 33 student-athletes earning All-State accolades.

Over 1,200 students participated in athletics between Valley Southwoods and Valley High School during the 2020-21 school year (and as a group) continue to lead in the classroom, community, and playing fields. Participation numbers: Fall- 319, Winter- 254, Spring- 497, Summer- 134. West Des Moines Community Schools continues to be very well represented by students, coaches, teachers, and families dedicated to the pursuit of excellence both in competitions and in academics.

The following is a breakdown of all teams' finishes at the State level categorized by Sport, State Finish, and All-Sports Award points.

Other Financial Information

Management of the District is responsible for establishing and maintaining internal controls designed to ensure that its assets are protected from loss, theft or misuse and to ensure that adequate data are compiled to allow for the preparation of the basic financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP). The internal controls are designed to provide reasonable, but not absolute, assurances that these objectives are met. The concept of reasonable recognizes that the cost of a control should not exceed the benefits likely to be derived. The valuation of costs and benefits requires estimates and judgments by management.

Single Audit. As a recipient of federal, state and county financial assistance, the District is responsible for ensuring that adequate internal controls are in place to ensure compliance with applicable laws and regulations related to those programs. The internal control procedures are subject to periodic evaluation by management and external auditors.

As a part of the District's audit, tests are made to determine the adequacy of the internal control over financial reporting and its compliance with applicable laws and regulations, including those related to major federal award programs. The results of the District's audit for the fiscal year ended June 30, 2021 noted no material weaknesses in the internal controls over financial reporting or for compliance issues.

Budgetary Controls. In addition, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the Board of Education. Activities of the General Fund, special revenue funds, Debt Service Fund, and enterprise funds are included in the annual appropriated budget by program. Project length financial plans are adopted for the capital projects funds and budgeted accordingly on an annual basis. The level of budgetary control (that is, the level at which expenditures cannot legally exceed the appropriated amount) is established by the functional level for all funds combined rather than at the individual fund level. The District also maintains an encumbrance accounting system as one technique of accomplishing budgetary control. Encumbered amounts lapse at the fiscal year's end. However, encumbrances generally are re-appropriated as part of the following year's budget.

As demonstrated by the statements and schedules included in the financial section of this report, the District continues to meet its responsibility for sound financial management.

In the 2014-15 fiscal year, the District implemented budgetary reductions totaling \$2.7 million. The District again initiated a budgetary process to reduce up to \$850,000 for the 2016-17 fiscal year given the District's 134 student decrease in Official Enrollment, which generates 2016-17 funding. In the spring of 2016, the District refunded its 2010 and 2011 Capital Loan Notes resulting in a net savings of approximately \$1.9 million over the remaining five years maturity. This Notes are paid from the District's Physical Plant and Equipment Levy Fund, PPEL, and this Fund will realize the \$1.9 million savings over the next five years.

The District's General Fund's categorical program's carryover balances increased by \$494,641 to a total carryover amount of \$2,695,958 at June 30, 2021. This carryover amount is reflected in both the General Fund's Fund Balance and Unspent Balances as of June 30, 2021.

Basis of Presentation. The charts and accounts used by the District have been prepared in conformity with GAAP as prescribed by the Governmental Accounting Standards Board and Audits of State and Local Governmental Units issued by the American Institute of Certified Public Accountants. In addition, the District's accounting records conform with the Uniform Accounting System for Iowa Schools, Chapter 11 of the Code of Iowa and Area Educational Agencies issued by the Department of Education, state of Iowa. The chart of accounts manual is updated annually and the District is in full compliance with these requirements.

Relevant Financial Policies. Since the funding formula is pupil driven, an increase in total spending authority occurs by increasing the number of pupils or by increasing the cost per pupil. The cost per pupil is determined by the legislature in setting the amount of Supplemental State Aid, formerly known as allowable growth, each year. The Supplemental State Aid becomes increasingly important because as a District, if we are faced with declining enrollment in a given year, the amount of Supplemental State Aid often will dictate budget reductions that will take place.

Awards and Acknowledgements

Independent Audits. The accounting firm of Bohnsack & Frommelt, LLP performed the annual audit. In addition to meeting requirements set forth in state statutes, the audit was designed to meet the requirements of federal Single Audit Act Amendments of 1996 and related and Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). The auditor's report on the basic financial statements, required supplementary information, combining and individual fund statements and other schedules are included in the financial section of this report.

Awards. The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the West Des Moines Community School District for its comprehensive annual financial report for the fiscal year ended June 30, 2020. The Certificate of Achievement is the highest form of recognition for excellence in state and local financial reporting.

In order to be presented this award, the District must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both GAAP and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. The West Des Moines Community School District has received a Certificate of Achievement for twenty-eight consecutive years.

The School District has also received the Certificate of Excellence in Financial Reporting from the Association of School Business Officials (ASBO) for thirty-one consecutive years. Upon recommendation of the Association's Panel and Review, which has judged that the report substantially conforms to principles and standards of ASBO's Certificate of Excellence Program, we are submitting this report to ASBO to determine its eligibility for another certificate.

A certificate from both associations is valid for a period of one year. We believe that our current comprehensive annual financial report continues to meet the program requirements of GFOA and ASBO and we are submitting it to both associations to determine its eligibility for another certificate.

Acknowledgement.

The preparation of this report on a timely basis could not have been accomplished without the efficient and dedicated efforts of the accounting staff and our auditors, Bohnsack & Frommelt, LLP. We would like to express our appreciation to all staff members who assisted and contributed to this report. Also, appreciation is expressed for the interest and support of the Board of Education in conducting the financial operations of the District in a most responsible and progressive manner.

Respectively submitted,

Lisa Remy, Ed.D. Superintendent

West Des Moines Community School District
West Des Moines, Iowa

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the West Des Moines Community School District, as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the West Des Moines Community School District, as of June 30, 2021, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, schedule of changes in the District's total OPEB liability and related ratios, and schedule of the District's proportionate share of the net pension liability and schedule of District contributions on pages 4-13 and 58-66 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The other supplementary information, as listed in the table of contents, and the other information, including the introductory and statistical sections and are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The other supplementary information, as listed in the table of contents are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

Bohnsack & frommelt LLP

In accordance with *Government Auditing Standards*, we have also issued our report dated November 18, 2021, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Moline, Illinois

November 18, 2021

Management's Discussion and Analysis Year Ended June 30, 2021

It is an honor to present to you the financial picture of West Des Moines Community School District. We offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the West Des Moines Community School District for the fiscal year ended June 30, 2021. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal.

FINANCIAL HIGHLIGHTS

The District showed an increase in net position of \$2,475,943 during the year ended June 30, 2021, compared to an increase in net position of \$6,857,872 during the year ended 2020.

Total revenues for the fiscal year ended June 30, 2021 and 2020 of \$156,771,473 and \$145,209,934 were comprised of general revenues in the amount of \$115,855,722 and \$109,896,627 and program revenues totaling \$40,915,751 and \$35,313,307, respectively.

As of June 30, 2021, the District's governmental funds reported combined ending fund balances of \$96,772,604 an increase of \$53,783,158 in comparison to 2020. As of June 30, 2020, the District's governmental funds reported combined ending fund balances of \$42,989,446 a decrease of \$6,891,412 in comparison to 2019.

As of June 30, 2021, unassigned fund balance of the General Fund was \$13,007,006 or 10.7 percent of total General Fund expenditures. As of June 30, 2020, unassigned fund balance of the General Fund was \$10,924,314 or 9.5 percent of total General Fund expenditures.

The West Des Moines Community School District's total bonded long-term debt increased by \$49,796,731 during the fiscal year 2021 and decreased by \$7,583,458 during fiscal year ended June 30, 2020. The increase was due to the issuance of \$50,225,000 capital loan notes.

OVERVIEW OF FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the West Des Moines Community School District's basic financial statements. The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements and 3) notes to the basic financial statements. This report also contains other information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of West Des Moines Community School District's finances in a manner similar to a private-sector business.

The statement of net position presents information on all of West Des Moines Community School District's assets, deferred outflows of resources and liabilities and deferred inflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

Management's Discussion and Analysis Year Ended June 30, 2021

The statement of activities presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements reflect functions of West Des Moines Community School District that are principally supported by taxes and intergovernmental revenues (governmental activities). The governmental activities of the District include instruction, support services, noninstructional programs, other and interest on long-term debt. Business-type activities are those that the District charges a fee to help cover the costs, such as School Nutrition and Community Education.

The government-wide financial statements include only West Des Moines Community School District. There are no other organizations or agencies whose financial statements should be combined and presented with the financial statements of the District.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The West Des Moines Community School District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the government's near-term financial requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The West Des Moines Community School District maintains six individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the General Fund, and Capital Projects Fund which are considered to be major funds. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

Proprietary funds. The District maintains two types of proprietary funds: enterprise and internal service. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The District maintains two enterprise funds. Internal service funds are used to report the same functions presented as governmental activities in the government-wide financial statements. The District maintains one internal service fund to account for the premium and claim payments for the self-insured health insurance and dental insurance plans for District's employees. Internal service funds are an accounting device used to accumulate and allocate costs internally among the District's various functions.

Management's Discussion and Analysis Year Ended June 30, 2021

Because the service provided by the District predominately benefits governmental, rather than business-type functions, it has been included within governmental activities in the government-wide financial statements. The basic proprietary fund financial statements can be found on pages 22 through 27 of this report.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the West Des Moines Community School District's own programs. The fiduciary fund of the District is a custodial fund. Custodial funds are custodial in nature and do not involve measurement of results of operation.

Notes to financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the West Des Moines Community School District's budgetary comparison, schedule of changes in the District's total OPEB liability and related ratios and schedule of proportionate share of the net pension liability and schedule of contributions.

The combining statements referred to earlier in connection with nonmajor governmental funds are presented immediately following the required supplementary information.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. The District's total net position has increased from a year ago from \$162,202,646 to \$164,678,589.

Table 1 - Net Position

Management's Discussion and Analysis Year Ended June 30, 2021

A significant portion of the District's total assets reflects its investment in capital assets. The District uses these capital assets to provide educational services; consequently, these assets are not available for future spending. The District's net investment in capital assets-net position was \$174,402,185 for 2021 and \$178,067,579 for 2020. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources since the capital assets themselves cannot be used to liquidate these liabilities.

The restricted portion of the District's net position (17.4 percent for 2021 and 14.6 percent for 2020) represents resources that are subject to external restrictions on how they may be used. These restrictions for 2021 include \$2,695,958 for categorical funding, \$1,734,177 for physical plant and equipment levy, \$3,737,486 for debt service, \$6,891,518 for statewide sales and services tax, \$11,855,741 for management levy, \$1,052,106 for student activities and \$729,840 for public education and recreation levy. The remaining balance of unrestricted net position, (\$38,420,422) for 2021 and (\$39,535,003) for 2020, is in a deficit position, due to the unfunded net pension liability and net other postemployment benefit (OPEB) liability. The governmental activities unrestricted net position is a deficit (\$40,284,923) for 2021 and (\$40,024,716) for 2020. The business-type activities unrestricted net position is \$1,864,501 for 2021 and \$489,713 for 2020.

At the end of the current and prior fiscal years, the West Des Moines Community School District is able to report positive balances in two categories of net position. Unrestricted net position is deficit in the current and prior fiscal year due to the net pension liability and net OPEB liability.

Table 2 highlights the District's revenues and expenses for the fiscal year ended June 30, 2021 and 2020. This table utilizes the full accrual method of accounting. Revenues less expenses yielded the change in net position. This change was anticipated and it enabled the District to acquire capital assets and to service its long-term debt.

Management's Discussion and Analysis Year Ended June 30, 2021

Net position, ending	\$ 161,626,177	\$ 160,495,163	\$ 3,052,412	\$ 1,707,483	\$ 164,678,589	\$ 162,202,646

The District's total net position increased by \$2,475,943 during the current fiscal year as compared to an increase of \$6,857,872 in 2020. The governmental activities net position increased by \$1,131,014 in 2021 and increased by \$7,597,930 in 2020. The business-type activities, which include nutrition and community education, increased by \$1,344,929 in 2021 and decreased by \$740,058 in 2020.

Net position increased in governmental activities primarily due to the \$5,673,067 increase in property tax revenue due to the increase in taxable assessed value, and the \$5,297,594 increase in operating grants and contributions due to the receipt of the federal Education Stabilization Fund grant funding.

Revenue is further divided into two major components: program revenue and general revenue. Program revenue is defined as charges for services and sales, operating and capital grants and contributions. General revenue includes taxes and unrestricted grants such as state foundation support. Expenses are shown in programs including instruction, support services, noninstructional programs, other, interest on long-term debt, school nutrition and community education.

Management's Discussion and Analysis Year Ended June 30, 2021

GOVERNMENTAL ACTIVITIES

Revenues for governmental activities were \$150,556,538 and expenses were \$148,292,001. Property taxes and other taxes such as sales tax and utility replacement tax and state sources including state foundation aid are the primary sources of revenue for the District. These sources represent 76.7 percent of total revenues. Instruction constitutes the largest portion of governmental activities expenses at \$96,923,636 or 65.4 percent of total expenses.

Table 3 discloses cost of services for governmental and business-type activities. The total cost of services column contains all costs related to the programs and the net cost column shows how much of the total amount is not covered by program revenues. Succinctly put, net costs are costs that must be covered by state aid or local taxes. The difference in these two columns would represent restricted grants and charges for services.

Table 3 - Governmenta	al and	Business-	Type	Activities
-----------------------	--------	-----------	------	------------

	Total Cost of Services				ervices		
	 2021		2020		2021		2020
Instruction	\$ 96,923,636	\$	89,204,546	\$	68,595,405	\$	66,670,659
Support services	44,831,528		36,816,314		42,606,221		34,342,878
Noninstructional programs	748,104		638,465		748,104		638,465
Other	4,153,136		4,026,872		-		-
Interest on long-term debt	1,635,597		809,005		1,635,597		809,005
School nutrition	4,258,325		4,399,266		(331,935)		212,981
Community education	1,745,204		2,457,594		126,387		364,767
Total expenses	\$ 154,295,530	\$	138,352,062	\$	113,379,779	\$	103,038,755

Net cost of services is 73.5 percent of total cost of services in 2021 and 74.5 percent of total cost of services in 2020. The cost of governmental activities financed by users of the District's programs was \$11,117,321 in 2021 and \$10,742,435 in 2020. Federal and state governments subsidized certain programs with grants and contributions totaling \$23,589,353 in 2021 and \$18,291,760 for 2020. The remaining net cost of the governmental activities was financed with property tax, state foundation aid and investment earnings.

Approximately 81 percent of the District's general fund budget is comprised of salary and benefit costs. Historically speaking, collective bargaining contracts have increased approximately four percent or more each year. Until 2010, District staffing had increased for several consecutive years due to gradual enrollment growth, changing student needs and demographics. More recently, the Board of Education has approved the administration's recommendation to reduce some teaching and staff positions in various education programs and support areas. These reductions were made in response to state funding cuts.

BUSINESS-TYPE ACTIVITIES

- The School Nutrition and Community Education programs constitute the business-type activities.
- The primary sources of income are charges for services and federal revenues.
- The School Nutrition Fund's primary expenses are staff and food. The School Nutrition Fund had an increase in net position of \$1,053,548 primarily due to increases in revenue as a result of federal funding due to COVID-19 and a transfer of \$154,739 of capital assets. For fiscal year 2020 net position decreased \$264,037.
- The primary source of revenue for the Community Education Fund is sales of services for educational programs. The Community Education Fund had an increase in net position of \$305,581 during the fiscal year, primarily due to a decrease in salary expense of \$443,701 and COVID-19 federal funding transfer of \$521,576.

Management's Discussion and Analysis Year Ended June 30, 2021

FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

As noted earlier, the West Des Moines Community School District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the West Des Moines Community School District's governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the West Des Moines Community School District's governmental funds reported combined ending fund balances of \$96,772,604, an increase of \$53,783,158 in comparison with the prior year fund balance of \$42,989,446. Approximately 13 percent or \$13,007,006 for 2021 and 25 percent or \$10,924,314 for 2020, constitutes unassigned fund balance, which is available for spending at the government's discretion. The majority of the remaining fund balance for 2021 and 2020 is restricted to indicate that it is not available for new spending because it has already been restricted for other purposes. The District committed \$5,189,067 and \$4,598,506 of fund balance for curriculum as of June 30, 2021 and 2020, respectively.

The General Fund is the chief operating fund of the District. At the end of the current fiscal year, unassigned fund balance of the General Fund was \$13,007,006 and \$10,924,314 for 2021 and 2020, respectively while total fund balance reached \$21,127,008 in 2021 and \$17,864,713 for 2020. This increase is primarily attributable to an increase of \$4,191,711 in federal funding, and \$3,187,537 increase in property taxes due to increased assessed valuation.

As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 10.7 percent of total General Fund expenditures, and total fund balance represents approximately 17.4 percent of that same amount for 2021. For 2020, unassigned fund balance represents 9.5 percent of total General Fund expenditures, while total fund balance represents approximately 15.6 percent of that same amount.

The Capital Projects Fund fund balance increased to \$62,007,909 from \$7,748,464 in 2020. This increase is due to the issuance of \$50,225,000 capital loan notes.

Management's Discussion and Analysis Year Ended June 30, 2021

BUDGETARY HIGHLIGHTS

As allowed by GASB Statement No. 41, *Budgetary Comparison Schedules – Perspective Differences*, the District presents budgetary comparison schedules as required supplementary information based on the program structure of four functional areas as required by state statute for its legally adopted budget. In accordance with the Code of Iowa, the Board of Education annually adopts a program budget which includes all funds except internal service and agency funds as described in the note to required supplementary information.

A comparison of the actual expenditures/expenses of the District's budgeted funds with the final amended program budget amounts is as follows:

	 Bud Original	t Final	. Е	Actual Expenditures/ Expenses	Variance		
Instruction Support services Noninstructional programs Other Total	\$ 89,419,756 37,390,673 7,854,960 36,319,429 170,984,818		90,800,000 41,190,000 7,860,000 43,200,000 183,050,000	\$	88,368,191 39,029,267 6,616,340 23,881,775 157,895,573	\$ 2,431,809 2,160,733 1,243,660 19,318,225 25,154,427	

The original budget is published at least three months prior to the start of the fiscal year-often prior to settlement of collective bargaining agreements and before final legislative action on the state budget. In the latter portion of the fiscal year the amended budget is published with "not to exceed" amounts to satisfy lowa's statutory reporting requirements.

The original budget was amended to include additional expenditures not expected in the original budget. The actual expenditures were less than the final amended budget by \$25,154,427 due to the timing of incurring the additional expenditures.

CAPITAL ASSETS AND DEBT ADMINISTRATION

The following table shows ending balances of capital assets invested in various categories. The District recognized a total net decrease of \$971,685 for 2021.

Table 4 - Capital Assets as of June 30 (Net of Depreciation)

	2021	2020
Land	\$ 4,095,848	\$ 4,095,848
Construction-in-progress	5,016,598	5,988,514
Buildings and improvements	199,545,300	199,176,861
Machinery and equipment	3,786,208	4,154,416
Total	\$ 212,443,954	\$ 213,415,639

Additional information about the District's capital assets can be found in Note 5 to the financial statements.

Management's Discussion and Analysis Year Ended June 30, 2021

Debt

As of June 30, 2021, the West Des Moines Community School District had bonds and capital loan notes outstanding totaling \$88,977,772 compared to \$39,181,041 as of June 30, 2020. In the current year, the District paid \$7,675,000 in principal and \$2,489,714 in interest on outstanding debt. In the current fiscal year, the District issued \$50,225,000 in capital loan notes.

	2021	2020
Capital loan notes	\$ 57,675,185	\$ 5,840,661
Revenue bonds	31,302,587	33,340,380
	\$ 88,977,772	\$ 39,181,041

As of June 30, 2021, the District's available legal debt margin was \$370,049,928 compared to \$341,388,799 as of June 30, 2020. Additional information about the District's long-term debt can be found in Note 6 to the financial statements.

Other long-term debt consists of:

Outstanding Long-Term Obligations

Additional information about the District's other long-term obligations can be found Note 7, Note 8, and Note 9 to the financial statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

The District is located in the central part of the state, within the larger Des Moines metropolitan area and ranks as one of the top growth areas of the state. The economic condition and outlook of the District have remained strong during the past ten years, following several years of very high economic growth and steady enrollment growth. This growth has had a positive effect on employment and the District's tax base. The District's tax base increased at an average annual rate of approximately 3.67% over the past 15 years. In fiscal year 2021 and 2020, the District experienced an increase in valuation of 1.50% and 4.73% respectively.

The tax base is expected to grow more slowly in the next five years.

Management's Discussion and Analysis Year Ended June 30, 2021

Retail sales, building permits and population increases in the western suburbs have generally exceeded that of any other location in the metropolitan area or in the state of lowa. Growth in the Des Moines area suburbs is expected to exceed the state average. A large percentage of these increases are occurring outside the District's boundaries.

In March, 2021, the Board approved General Fund budget reductions totaling approximately \$3.03 million dollars effective July 1, 2021. This is largely due to student enrollment and low state supplemental amounts. However, the number of students served has increased due to fewer open enrolled out and an increase in open enrolled students. The District's property tax rate of \$13.120 has remained unchanged or decreased over the past 12 years. The Board's goal is to keep the property tax rate unchanged in the upcoming fiscal years.

Request for Information

These financial statements and discussions are designed to provide our students, citizens, taxpayers, investors and creditors with a complete disclosure of the District's finances and to demonstrate a high degree of accountability for the public dollars entrusted to us. If you have questions about this report or need additional information, please contact Mr. Paul Bobek, Chief Financial officer, West Des Moines Community School District, 3550 Mills Civic Parkway, West Des Moines, Iowa 50265-5556.

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities Year Ended June 30, 2021

Net change in fund balances - total governmental funds	\$	53,783,158
Amounts reported for governmental activities in the statement of		
activities are different because:		
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their		
estimated useful lives as depreciation expense. This is the amount by which		
capital outlays exceeded depreciation in the current period:		
Capital outlay 8,817,138		
Transfer capital assets to enterprise fund (154,739)

Grants 1,336,062		
Tuition	_	2,471,442
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. The issuance of long-term debt increases liabilities in the statement of net position, while the repayment of long-term debt reduces long-term liabilities. In the statement of activities, interest is accrued on outstanding bonds, whereas in the governmental funds an interest expenditure is reported when due. The following is the detail of the net effect of these differences in the treatment of long-term debt and related items: Issuance of long-term debt Repayment of bond principal (50,225,000)		
Premium on issuance of long-term debt (8,358,090)		
Accretion of premium 1,117,523		
Amortization of discount (6,164)		(== === ===)
Interest (257,242)	_	(50,053,973)
Internal service funds are used by management to charge the costs of certain activities to individual funds. The net revenue of the		
Internal Service Fund is reported with governmental activities.		307,873
Change in Internal Service Fund allocation to business-type activities		14,200
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds:		
Change in compensated absences (22,470)		
Change in net pension liability (3,189,469)		
Change in liability for other postemployment benefits (1,540,149)		
Change in liability for early retirement 302,228		(4,449,860)

Notes to Basic Financial Statements Year Ended June 30, 2021

Note 1. Nature of Operations, Reporting Entity and Significant Accounting Policies Nature of operations:

The West Des Moines Community School District (the District) was incorporated under Chapter 274 of the State Code of Iowa. The District has the power to make rules and regulations for its own government consistent with the laws of the state of Iowa and the regulations of the Iowa State Board of Education. The District is governed by the elected West Des Moines Community School Board of Education (the Board). The District is composed of one high school, one ninth grade school, two junior high schools, eight elementary schools and one alternative high school. Student enrollment (kindergarten through high school) for the 2020-2021 school year was 8,991 regular and special education students. The District employs approximately 1,200 full-time equivalent personnel.

Reporting entity:

In accordance with Governmental Accounting and Financial Reporting Standards, the basic financial statements include all funds, organizations, agencies, boards, commissions and authorities for which the District is financially accountable. The District has also considered all other potential organizations for which the nature and significance of their relationships with the District are such that exclusion would cause the District's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board (GASB) has set forth criteria to be considered in determining financial accountability. These criteria include appointing a majority of an organization's governing body, and (1) the ability of the District to impose its will on that organization or (2) the potential for the organization to provide specific benefits to, or impose specific financial burdens on, the District. In addition, the GASB Statement No. 39, as amended by GASB Statement No. 61 sets forth additional criteria to determine whether certain organizations for which the District is not financially accountable should be reported as component units based on the nature and significance of their relationship with the District. These criteria include 1) the economic resources being received or held by the separate organization being entirely or almost entirely for the direct benefit of the District, its component units, or its constituents, 2) the District being entitled to, or having the ability to otherwise access, a majority of the economic resources received or held by the organization and 3) the economic resources received or held by an individual organization that the District is entitled to, or has the ability to otherwise access, are significant to the District. Based on these criteria, there are no other organizations which should be included in these basic financial statements.

<u>Basis of presentation</u>: The District's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities and fund financial statements which provide a more detailed level of financial information.

<u>Government-wide and fund financial statements</u>: The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the District. For the most part, the effect of the interfund activity has been removed from these statements. Interfund services provided and used are not eliminated in the process of consolidation. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for services. Interfund services provided and used are not eliminated in the process of consolidation for these statements.

Notes to Basic Financial Statements Year Ended June 30, 2021

Note 1. Nature of Operations, Reporting Entity and Significant Accounting Policies (Continued)

The statement of net position presents the District's nonfiduciary assets and liabilities, with the difference reported as net position. Net position is reported in the following categories:

Net investment in capital assets: Consists of capital assets, net of accumulated depreciation/amortization and reduced by outstanding balances for bonds, notes and other debt attributable to the acquisition, construction or improvement of those assets.

Restricted net position: Results when constraints placed on net position use are either externally imposed or imposed by law through constitutional provisions or enabling legislation.

Unrestricted net position: Consist of net position that does not meet the definition of the preceding categories. Unrestricted net position often has constraints on resources imposed by management which can be removed or modified.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. The focus of fund financial statements is on major funds. Major individual governmental funds are reported as separate columns in the fund financial statements. Nonmajor funds are aggregated and presented in a single column.

Fund accounting: The accounts of the District are organized on the basis of funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for by providing a separate set of self-balancing accounts which comprise its assets, liabilities, fund balance/net position, revenues and expenditures or expenses, as appropriate. The District has the following funds:

<u>General Fund</u>: The General Fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund. The General Fund accounts for the instructional and most of the support service programs of the District's operations. Revenue of the fund consists primarily of local property taxes and state governmental aid.

<u>Capital Projects Fund</u>: Accounts for the resources used to pay for the purchase and improvement of sites, demolition work, special assessments and major building repairs, physical plant and equipment levy (PPEL) as well as the statewide sales and services tax for school infrastructure.

Notes to Basic Financial Statements Year Ended June 30, 2021

Note 1. Nature of Operations, Reporting Entity and Significant Accounting Policies (Continued)

The other governmental funds of the District are considered nonmajor and are as follows:

<u>Debt Service Fund</u>: Accounts for the accumulation of resources for, and the payment of, general long-term debt principal, interest and related costs.

<u>Special Revenue Funds</u>: Are used to account for the revenue sources that are legally restricted to expenditures for specific purposes.

<u>Playground Fund</u>: Accounts for the resources used to establish and maintain public recreation places and playgrounds and necessary accommodations for children and adults.

<u>Student Activity Fund</u>: Accounts for money held by the District on behalf of the students who have raised these funds and are responsible for their disposition for co-curricular to extracurricular activities of the District.

<u>Management Fund</u>: Accounts for the resources from a specific tax levy for tort liability insurance premiums, unemployment compensation insurance claims and early retirement incentive payments.

Proprietary Fund Types: Proprietary fund types are used to account for the District's ongoing organizations and activities which are similar to those often found in the private sector. The measurement focus is upon income determination, financial position and cash flows.

Enterprise Funds: Are used to account for those operations that are financed and operated in a manner similar to private business or where the District has decided that the determination of revenues earned, costs incurred and/or net income is necessary for management accountability.

The following enterprise funds of the District are considered nonmajor: School Nutrition Fund: Accounts for the food service operations of the District.

<u>Community Education Fund</u>: Accounts for the educational programs available to the general public on a fee basis.

Internal Service Fund: The Internal Service Fund is used to account for goods or services provided by one department to other departments of the District on a cost reimbursement basis. The District's Internal Service Fund is used to account for the premium and claim payments for the self-insured health insurance and dental insurance plans for District employees.

Fiduciary Fund Types: Fiduciary fund types are used to account for net position and changes in net position. The District has one fiduciary fund which is considered a Custodial Fund:

<u>Flower Fund</u>: To account for donations to be used for flower purchases for memorials or illnesses of District employees.

Measurement Focus and Basis of Accounting: The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been satisfied. The District also reports fiduciary funds which focus on net position and changes in net position. The fiduciary fund reports on the accrual basis of accounting.

Notes to Basic Financial Statements Year Ended June 30, 2021

Note 1. Nature of Operations, Reporting Entity and Significant Accounting Policies (Continued)

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Revenues – exchange and nonexchange transactions: Property taxes, other taxes, grants, entitlements and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current period. All other revenue items are considered to be measurable and available only when cash is received.

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available.

Nonexchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which it is budgeted. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Property taxes are recognized as a receivable at the time they become an enforceable legal claim. This is determined to occur when the budget is certified and approved by the state of lowa. The current tax levy recognized in revenue was certified in April 2020 based on 2018 assessed valuations. The current property tax receivable was certified in April 2021 based on 2019 assessed valuations. These taxes are due in two installments on September 30 and March 31, with a 1.5 percent per month penalty for delinquent payment.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenue of the District's proprietary funds are charges for food sales or tuition and fees. Operating expenses for proprietary funds include the cost of services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Under the terms of grant agreements, the District funds certain programs by a combination of specific cost reimbursement grants and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net position available to finance the program. It is the District's policy to first apply cost reimbursement grant resources to such programs and then general revenues.

Notes to Basic Financial Statements Year Ended June 30, 2021

Note 1. Nature of Operations, Reporting Entity and Significant Accounting Policies (Continued)

When an expenditure is incurred in governmental funds which can be paid using either restricted or unrestricted resources, the District's policy is generally to first apply the expenditure restricted fund balance and then to less restrictive classifications – committed, assigned and then unassigned fund balances.

Significant Accounting Policies:

The significant accounting policies followed by the District include the following:

<u>Cash, cash equivalents and investment accounts</u>: Separate bank accounts and investments are not maintained for all District funds, as certain funds maintain their cash and investment balances in a pooled account. Accounting records are maintained to show the portion of the pooled account attributable to each participating fund.

<u>Inventories</u>: Inventories are valued at cost (first-in, first-out), which approximates market. The consumption method of accounting is applied to the governmental fund type inventories. Unused commodities at balance sheet date are reported as inventory in the statement of net position.

<u>Capital assets</u>: General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirement during the year. Donated capital assets are recorded at the acquisition value as of the date received. The District maintains a capitalization threshold of \$5,000 (\$500 for the School Nutrition Fund). The District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not. All reported assets except land and construction-in-progress are depreciated. Depreciation is computed using the straight-line method over the following useful lives:

	Estimated
Description	Useful Lives
Buildings and improvements	20 - 50 years
Machinery and equipment	5 - 15 years
Intangibles	15 years

The District's collection of library books and other similar assets are not capitalized due to the individual assets not meeting the District's capitalization threshold. These collections are unencumbered, held for public exhibition and education, protected, cared for and preserved and subject to District policy that requires proceeds from the sale of these items, if any, to be used to acquire other collection items.

<u>Unearned revenue</u>: Proprietary funds defer revenue recognition in connection with resources that have been received, but not earned. Unearned revenue in governmental funds arises when assets are recognized before revenue recognition criteria have been satisfied. Grants and entitlements received before the eligibility requirements are met are also recorded as unearned revenue. Unearned revenue consists primarily of school registration fees, unexpended grant receipts and meal revenues collected for the programs and services in the next school year.

Notes to Basic Financial Statements Year Ended June 30, 2021

Note 1. Nature of Operations, Reporting Entity and Significant Accounting Policies (Continued)

<u>Accrued payroll</u>: Payroll and the related payroll taxes and benefits for teachers with annual contracts corresponding to the school year, but have balances payable in July and August, have been accrued as a liability as they are applicable to services provided during the respective fiscal years and will be paid with available resources.

<u>Compensated absences</u>: District employees accumulate a limited amount of earned but unused vacation and sick leave for subsequent use or for payment upon termination, death or retirement. A liability is recorded when incurred in the District-wide financial statements. A liability for these amounts is reported in governmental fund financial statements only for employees who have resigned or retired. The compensated absences liability has been computed based on rates of pay in effect as of June 30, 2021. The compensated absences liability attributable to the governmental activities will be paid primarily by the General Fund and by the Special Revenue Fund, Management Levy.

Self-insurance: The District is self-insured for health and dental benefits. The District's premiums and claims are accounted for in the Internal Service Fund. Premiums are charged by the Internal Service Fund to operating funds based upon number of employees and selected coverage in each fund. There have been no significant reductions in insurance coverage for the District from the prior year.

<u>Cash flows</u>: For the purpose of cash flows, the District considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

Fund balances: In the governmental fund financial statements, fund balances are classified as follows:

Nonspendable: Amounts which cannot be spent either because they are in a nonspendable form or because they are legally or contractually required to be maintained intact.

<u>Restricted</u>: Amounts restricted to specific purposes when constraints placed on the use of the resources are either externally imposed by creditors, grantors or state or federal laws or imposed by law through constitutional provisions or enabling legislation.

<u>Committed</u>: Amounts which can be used only for specific purposes pursuant to constraints formally imposed by the Board of Education through resolution approved prior to year-end. Those committed amounts cannot be used for any other purpose unless the Board of Education removes or changes the specified use by taking the same action it employed to commit those amounts.

<u>Assigned</u>: Amounts the Board of Education intend to use for specific purposes. The authority to assign fund balances has been delegated to the Chief Financial Officer through the Board approved budget of the District.

<u>Unassigned</u>: All amounts not included in other spendable classifications as well as any deficit fund balance of any other governmental fund is reported as unassigned.

Notes to Basic Financial Statements Year Ended June 30, 2021

Note 1. Nature of Operations, Reporting Entity and Significant Accounting Policies (Continued)

The District's flow of funds assumption prescribes that the funds with the highest level of constraint are expended first. If restricted or unrestricted funds are available for spending, the restricted funds are spent first. Additionally, if different levels of unrestricted funds are available for spending, the District considers committed funds to be expended first followed by assigned funds and then unassigned.

<u>Deferred outflows/inflows of resources</u>: In addition to assets, the balance sheet and/or statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of fund balance or net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expenses/expenditures) until then. Deferred outflows of resources in the proprietary funds and government-wide statement of net position consist of unrecognized items not yet charged to pension expense and other postemployment benefit expense and contributions from the employer after the measurement date but before the end of the employer's reporting period.

In addition to liabilities, the balance sheet and/or statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of fund balance or net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District reports unavailable revenue in the governmental funds balance sheet from the statewide sales and services tax, grants and property tax. This amount is deferred and recognized as an inflow of resources in the period that the amounts become available. In the District's government-wide statements, only the succeeding year property tax revenues remain as a deferred inflow of resources under the full accrual basis of accounting and will become an inflow in the year for which levied. Deferred inflows of resources in the proprietary funds and government-wide statements also include the unrecognized items not yet charged to pension expense and other postemployment benefit expense.

<u>Pensions</u>: For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the lowa Public Employees' Retirement System (IPERS) and additions to/deductions from IPERS' fiduciary net position have been determined on the same basis as they are reported by IPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms. Investments are reported as fair value.

<u>Net position</u>: In proprietary funds, fiduciary funds, and government-wide financial statements, net position represents the difference between assets, deferred outflows of resources, liabilities, and deferred inflows of resources. Net investment in capital assets, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net investment in capital assets excludes unspent bond proceeds of \$50,936,003.

Net position is reported as restricted when there are limitations imposed on their use through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

Net position restricted through enabling legislation consists of \$1,734,177 for physical plant and equipment levy, \$3,737,486 for debt service, \$6,891,518 for statewide sales and services tax, \$11,855,741 for management levy and \$729,840 for public education and recreation levy. All other restricted net position consists of \$2,695,958 for categorical funding and \$1,052,106 for student activities and are restricted by grantors and donors.

Notes to Basic Financial Statements Year Ended June 30, 2021

Note 1. Nature of Operations, Reporting Entity and Significant Accounting Policies (Continued)

<u>Net position flow assumption</u>: Sometimes the District will fund outlays for a particular purpose from both restricted (e.g. restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted-net position and unrestricted-net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the District's policy to consider restricted-net position to have been depleted before unrestricted-net position is applied.

<u>Interfund activity</u>: Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

Estimates: The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Note 2. Budgetary and Budgetary Control

As allowed by GASB Statement No. 41, *Budgetary Comparison Schedules – Perspective Differences*, the District presents budgetary comparison schedules as required supplementary information based on the program structure of four functional areas as required by state statute for its legally adopted budget.

Note 3. Cash and Cash Equivalents and Investments

The District is authorized by statute to invest public funds in obligations of the United States government, its agencies and instrumentalities; certificates of deposit or other evidences of deposit at federally insured depository institutions approved by the Board of Education; prime eligible bankers acceptances; perfected repurchase agreements; certain registered open-end management investment companies; certain joint investment trusts and warrants or improvements certificates of a drainage district.

As of June 30, 2021, the District had investments in the Iowa Schools Joint Investment Trust Direct Government Obligations Portfolio which are valued at an amortized cost of \$38 pursuant to Rule 2a-7 under the Investment Company Act of 1940. The District had investments in the Goldman Sachs Financial Square Fund Governmental Fund of \$3,832,981. There were no limitations or restrictions on withdrawals from these investments.

<u>Custodial credit risk</u>: The District's deposits in banks as of June 30, 2021 were entirely covered by federal depository insurance or by the State Sinking Fund in accordance with Chapter 12C of the Code of Iowa. This Chapter provides for additional assessments against the depositories to insure there will be no loss of public funds. The District does not have a separate policy from state statutes.

<u>Credit risk</u>: The investment in the Iowa Schools Joint Investment Trust was rated AAAm by Standard & Poor's Rating Service. The investment in the Goldman Sachs Financial Square Fund Governmental Fund was rated AAAm by Standard & Poor's Rating Service and Aaa-mf by Moody's Rating Service. The District does not have a separate credit risk policy from state statutes.

The District does not have a separate interest rate risk or concentration of credit risk policy from state statutes.

Notes to Basic Financial Statements Year Ended June 30, 2021

Note 4. Interfund Transfers and Balances

The following is a schedule of transfers as included in the basic financial statements of the District:

	 Transfers In		ransfers Out
Major funds:			
General	\$ 169,767	\$	1,372,382
Capital Projects Fund	-		10,164,714
Other nonmajor governmental funds	10,398,545		10,000
Other nonmajor enterprise fund	 1,138,551		159,767
	\$ 11,706,863	\$	11,706,863

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and (2) use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

The Capital Projects Fund acquired \$154,739 of equipment and transferred the capital assets to the nonmajor enterprise fund, the School Nutrition Fund.

Compensated absences are generally liquidated by the General Fund.

Net OPEB liability and net pension liability are generally liquidated by the General Fund for governmental activities and the respective funds for business-type activities.

The District's general obligation and revenue debt is as follows:

Capital loan notes:

<u>Series 2016</u>: On March 8, 2016, the District issued \$23,665,000 General Obligation School Capital Loan Refunding Notes, Series 2016 with an interest rate of 5.0 percent to current refund \$7,565,000 of the General Obligation Capital Loan Notes, Series 2010 and \$19,140,000 of the General Obligation School Capital Loan Notes, Series 2011. The District current refunded the Series 2010 and Series 2011 Capital Loan Notes to reduce its debt service payments over the next five years by \$1,947,227 and to obtain an economic gain (difference between the present values of the debt service payments on the old and new debt) of \$1,898,067. Principal was payable each May 1 and interest was payable semi-annually each November 1 and May 1. The Series 2016 capital loan notes matured on May 1, 2021. During the year ended June 30, 2021, \$5,245,000 of principal and \$262,250 of interest was paid on the bonds.

Notes to Basic Financial Statements Year Ended June 30, 2021

Note 6. Long-Term Debt (Continued)

<u>Series 2020A</u>: On October 8, 2020, the District issued \$50,225,000 General Obligation School Capital Loan Notes, Series 2020A with interest rates ranging from 2.0 percent to 5.0 percent to construct, build, furnish and equip additions, including storm shelters to a number of schools. The notes are general obligations of the District to be paid from a continuing annual levy. Principal is payable each May 1 and interest is payable semi-annually each November 1 and May 1 until maturity on May 1, 2031. The total principal and interest remaining to be paid on the 2020 bonds is \$60,140,350. During the year ended June 30, 2021, \$490,000 of principal and \$1,176,667 of interest was paid on the bonds.

Revenue bonds:

<u>Series 2012</u>: On April 5, 2012, the District issued \$10,000,000 in School Infrastructure Sales, Services and Use Tax Revenue Bonds to finance school infrastructure projects. The bonds bear interest at rates ranging from 2.10 percent to 3.00 percent and had an unpaid balance of \$10,000,000. The revenue bonds will be repaid using statewide sales, services and use tax collected in the Capital Projects Fund. The bonds are payable solely from the proceeds of the statewide sales, services and use tax revenues received by the District. The bonds are not general obligations of the District. The total principal and interest remaining to be paid on the 2012 bonds is \$11,351,433. During the year ended June 30, 2021, no principal was paid on the 2012 bonds and \$255,390 of interest was paid on the bonds.

<u>Series 2013</u>: On December 23, 2013, the District issued \$9,760,000 in School Infrastructure Sales, Services and Use Tax Revenue Bonds, Series 2013 to finance school infrastructure projects. The bonds bear interest at rates ranging from 3.00 percent to 4.00 percent and had an unpaid balance of \$6,065,000. The revenue bonds will be repaid using statewide sales, services and use tax collected in the Capital Projects Fund. The bonds are payable solely from the proceeds of the statewide sales, services and use tax revenues received by the District. The bonds are not general obligations of the District. The total principal and interest remaining to be paid on the 2013 bonds is \$7,136,330. During the year ended June 30, 2021, \$575,000 of principal and \$211,750 of interest was paid on the 2013 bonds.

<u>Series 2014</u>: On June 24, 2014, the District issued \$22,320,000 in School Infrastructure Sales, Services and Use Tax Revenue Bonds, Series 2014 to finance school infrastructure projects. The bonds bear interest at rates ranging from 2.00 percent to 5.00 percent and had an unpaid balance of \$14,460,000. The revenue bonds will be repaid using statewide sales, services and use tax collected in the Capital Projects Fund. The bonds are payable solely from the proceeds of the statewide sales, services and use tax revenues received by the District. The bonds are not general obligations of the District. The total principal and interest remaining to be paid on the 2014 bonds is \$16,888,089. During the year ended June 30, 2021, \$1,365,000 of principal and \$576,788 of interest was paid on the 2014 bonds.

The statewide sales, services and use tax revenues were \$8,973,645 for the year ended June 30, 2021. Annual principal and interest payments on the bonds are expected to require approximately 35 percent of the statewide sales, services, and use tax revenues. Total principal and interest remaining on the revenue bonds is \$35,375,852. For the current year, total principal paid was \$1,940,000 and total interest paid was \$1,043,928.

Notes to Basic Financial Statements Year Ended June 30, 2021

Note 6. Long-Term Debt (Continued)

The resolution providing for the issuance of the revenue bonds included the following provisions:

- All proceeds from the statewide sales, service and use tax shall be deposited into the revenue account.
- Monies in the revenue account shall first be disbursed to make deposits into the sinking account to pay the principal and interest requirements of the revenue bonds for the fiscal year. At June 30, 2021, there was \$1,127,695, \$696,548, and \$1,671,333 deposited in the sinking account for the 2012, 2013 and 2014 bonds respectively.
- Monies in the revenue account shall next be disbursed to maintain a reserve account to be used solely for the purpose of paying principal and interest on the bonds if insufficient money is available in he sinking account. At June 30, 2021, there was \$979,069, \$798,495 and \$2,055,417 deposited in the reserve account for the 2012, 2013 and 2014 bonds respectively.
- If monies in the sinking fund exceed the required amount, the excess shall be transferred to the revenue account. At June 30, 2021, there was \$27,912, \$87,928 and \$126,070 deposited in the revenue account for the 2012, 2013 and 2014 bonds respectively.

Annual debt service requirements on all outstanding indebtedness as of June 30, 2021, are as follows:

Notes to Basic Financial Statements Year Ended June 30, 2021

Note 7. Early Retirement

In order to hasten early retirement, the District offered an early retirement plan benefit to its employees. The Board reserves the right to amend or revoke this Early Retirement Plan or any provision of this plan at any time, with or without notice.

To be eligible to participate in this Plan, an employee must (1) have worked a minimum of 30 hours per week, or 70 percent of contract, during each of the last ten full years of service; (2) a year of service refers to a school year. Thus, in order to count as a school year, the employee must be employed by the first student contact day in order for that year to count towards a full year of service; (3) have a minimum of ten full years of continuous service in the District; (4) have obtained the age of 55 as of June 30, 2021; (5) an employee terminated for just cause, or receiving payments or benefits from or on behalf of the District that are not tied to the performance of current duties, is not eligible (6) an employee is eligible to participate in the plan only at the end of the current school year for certified employees or nine month employees or June 30th for all other employees.

Benefits to eligible employees include a lump sum payment into a tax-sheltered annuity benefit in December following retirement equal to the number of sick leave days accumulated as of retirement (125 maximum for nine- and ten-month employees or 135 maximum for 11- and 12-month employees) multiplied by \$50 per day. In addition, eligible employees will receive single District/major medical insurance capped at the 2020-2021 premiums for the District's lowest cost plan. The District's contribution to an early retiree's health insurance will end the earlier of 1) six years from the retirement date, or 2) the month prior to the early retiree's 65th birthday.

At the October 14, 2020 Board meeting, the Board voted to discontinue the use of converting sick leave as part of the early retirement plan. Instead, those employees who qualify and elect early retirement will receive a lump sum payment to their TSA based on their base salary. In the past year, the conversion to sick leave was treated as a long-standing on going benefit that was treated as an explicit rate subsidy of GASB Statement No. 75. In the current year GASB Statement No. 75 actuarial valuation, based on the discontinuance of the former plan the Early Retirement plan is not considered an explicit benefit and is now considered an early retirement benefit under GASB Statement No. 47. In addition, sick leave no longer vests.

As of June 30, 2021, the District had \$4,121,105 accrued in the Management Fund and \$535,929 accrued in a long term liability in Governmental Activities. The current year cost to the District was \$4,121,105 consisted of 132 participants in the plan. A summary of changes in liability for early retirement is shown as follows:

Additions	4,657,034
Reductions	1,317,868
Balance, June 30, 2021	\$ 4,657,034

Notes to Basic Financial Statements Year Ended June 30, 2021

Note 8. Postemployment Benefits Other Than Pensions (OPEB)

General Information about the OPEB Plan

Plan description: The District's defined benefit OPEB plan, West Des Moines Community School District Postemployment Plan Other Than Pensions (the Plan), provides postemployment benefits for eligible participants enrolled in its plans. The plan is a single-employer defined benefit OPEB plan administered by the District. Under Chapter 509A.13 of the Code of Iowa, "Group Insurance for Public Employees": If a governing body... has procured insurance for its employees, the governing body shall allow its employees who retired before attaining sixty-five years of age to continue participation in the group plan or under the group contract at the employee's own expense until the employee attains sixty-five years of age.

In order to be eligible for the District premium subsidy at retirement, employees must have obtained the age of 55 with a minimum of ten full years of continuous employment in the District. No assets are accumulated in a trust that meets the criteria in paragraph 4 of Governmental Accounting Standard Board Statement No. 75.

Benefits provided: The Plan provides pre Medicare medical and prescription drug benefits to its participants. The medical and prescription drug benefits are provided through a self funded program administered by a third-party administrator. Retirees are eligible for three self-insured PPO plans offered through Wellmark. Dental coverage is made available to eligible retirees and is fully contributory.

The full monthly premium rates as of July 1, 2021 for each plan are as shown below:

Rate Tier	Plan 1	Plan 2	Plan 3
Single	\$ 634	\$ 609	\$ 571
Subscriber and Spouse	1,396	1,340	1,257
Subscriber and Children	1,206	1,158	1,085
Family	1,904	1,828	1,713

Future retirees meeting eligibility requirements are reimbursed a fixed subsidy equal to the lowest single medical premium equivalent at the time of retirement. The District provides the subsidy for six years or until the retiree reaches age 65.

Employees covered by benefit terms: At June 30, 2021, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefit payments	23
Inactive employees entitled to but not yet receiving benefit payments	-
Active employees	1,221
	1,244

Total OPEB Liability

The District's total OPEB liability of \$19,895,385 was measured as of June 30, 2021 and was determined by an actuarial valuation as of June 30, 2020 rolled forward to June 30, 2021.

Notes to Basic Financial Statements Year Ended June 30, 2021

Note 8. Other Postemployment Benefits (Continued)

<u>Actuarial assumptions and other inputs:</u> The total OPEB liability in the June 30, 2021 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement unless otherwise specified:

Inflation	3.00% per annum
Salary increases	3.25% per annum
Discount rate	2.16% per annum
Retirees' share of benefit-related costs	0%
Health care cost trend rate	5.5%. The trend rate is reduced by 0.50% each
	year until reaching the ultimate trend rate of 4.50%.

The discount rate was based on the Bond Buyer 20-Bond GO index. Mortality rates were based on the Pub-2010 mortality table with generational scale MP-2020. The actuarial assumptions used in the June 30, 2021 valuation were based on the results of an actuarial experience study for the period 2010–2020.

Changes in the Total OPEB Liability

	٦	Total OPEB	
		Liability	
Balance at July 1, 2020	\$	17,767,186	
Changes for the year:			
Service cost		2,096,078	
Interest		433,624	
Changes of benefit terms		-	
Differences between expected and actual experience		-	
Changes in assumptions or other inputs		83,013	
Benefit payments		(484,516)	
Net changes		2,128,199	
Balance at June 30, 2021	\$	19,895,385	

Sensitivity of the total OPEB liability to changes in the discount rate: The following presents the total OPEB liability of the District, as well as what the District's total OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher than the current discount rate:

	1	1% Decrease		scount Rate	1% Increase
		(1.16%)		(2.16%)	(3.16%)
Total OPEB liability	\$	21,662,000	\$	19,895,385	\$ 18,272,000

Notes to Basic Financial Statements Year Ended June 30, 2021

Note 8. Other Postemployment Benefits (Continued)

<u>Sensitivity of the total OPEB liability to changes in the healthcare cost trend rates:</u> The following presents that total OPEB liability of the District, as well as what the District's total OPEB liability would be if it were calculated using healthcare cost trend rates that are 1 percentage point lower or 1-percentage point higher than the current healthcare cost trend rates.

		Healthcare Cost					
		1% Decrease Trend Rates 1% Increa					
	(4.5% decreasing	(5.5% decreasing	(6.5% decreasing			
		to 3.50%)	to 4.50%)	to 5.5%)			
Total OPEB liability	\$	17,373,000	\$ 19,895,385	\$ 22,924,000			

For the year ended June 30, 2021, the District recognized OPEB expense of \$2,089,000. At June 30, 2021, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

S	Deferred Outflo of Resources			ferred Inflows f Resources
Differences between expected and actual experience	\$	-	\$	(2,173,653)
Changes of assumptions or other inputs		708,071		(3,085,891)
Net difference between projected and actual investments		-		_
Total	\$	708,071	\$	(5,259,544)

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year ended June 30:	
2022	\$ (440,865)
2023	(440,865)
2024	(440,865)
2025	(440,865)
2026	(440,865)
Thereafter	(2,347,148)
	\$ (4,551,473)

Note 9. Retirement System

<u>Plan Description</u> – IPERS membership is mandatory for employees of the District, except for those covered by another retirement system. Employees of the District are provided with pensions through a cost-sharing multiple employer defined benefit pension plan administered by Iowa Public Employees' Retirement System (IPERS). IPERS issues a stand-alone financial report which is available to the public by mail at 7401 Register Drive P.O. Box 9117, Des Moines, Iowa 50306-9117 or at www.ipers.org.

IPERS benefits are established under lowa Code Chapter 97B and the administrative rules thereunder. Chapter 97B and the administrative rules are the official plan documents. The following brief description is provided for general informational purposes only. Refer to the plan documents for more information.

Notes to Basic Financial Statements Year Ended June 30, 2021

Note 9. Retirement System (Continued)

<u>Pension Benefits</u> – A regular member may retire at normal retirement age and receive monthly benefits without an early-retirement reduction. Normal retirement age is age 65, any time after reaching age 62 with 20 or more years of covered employment, or when the member's years of service plus the member's age at the last birthday equals or exceeds 88, whichever comes first. These qualifications must be met on the member's first month of entitlement to benefits. Members cannot begin receiving retirement benefits before age 55. The formula used to calculate a Regular member's monthly IPERS benefit includes:

- A multiplier based on years of service.
- The member's highest five-year average salary, except members with service before June 30, 2012, will use the highest three-year average salary as of that date if it is greater than the highest five-year average salary.

If a member retires before normal retirement age, the member's monthly retirement benefit will be permanently reduced by an early-retirement reduction. The early-retirement reduction is calculated differently for service earned before and after July 1, 2012. For service earned before July 1, 2012, the reduction is 0.25 percent for each month that the member receives benefits before the member's earliest normal retirement age. For service earned starting July 1, 2012, the reduction is 0.50 percent for each month that the member receives benefits before 65.

Generally, once a member selects a benefit option, a monthly benefit is calculated and remains the same for the rest of the member's lifetime. However, to combat the effects of inflation, retirees who began receiving benefits prior to July 1990 receive a guaranteed dividend with their regular November benefit payments.

<u>Disability and Death Benefits</u> – A vested member who is awarded federal Social Security disability or Railroad Retirement disability benefits is eligible to claim IPERS benefits regardless of age. Disability benefits are not reduced for early retirement. If a member dies before retirement, the member's beneficiary will receive a lifetime annuity or a lump-sum payment equal to the present actuarial value of the member's accrued benefit or calculated with a set formula, whichever is greater. When a member dies after retirement, death benefits depend on the benefit option the member selected at retirement.

Contributions – Contribution rates are established by IPERS following the annual actuarial valuation, which applies IPERS' Contribution Rate Funding Policy and Actuarial Amortization Method. State statute limits the amount rates can increase or decrease each year to 1 percentage point. IPERS Contribution Rate Funding Policy requires that the actuarial contribution rate be determined using the "entry age normal" actuarial cost method and the actuarial assumptions and methods approved by the IPERS Investment Board. The actuarial contribution rate covers normal cost plus the unfunded actuarial liability payment based on a 30-year amortization period. The payment to amortize the unfunded actuarial liability is determined as a level percentage of payroll, based on the Actuarial Amortization Method adopted by the Investment Board.

In fiscal year 2021, pursuant to the required rate, Regular members contributed 6.29 percent of covered payroll and the District contributed 9.44 percent of covered payroll for a total rate of 15.73 percent.

The District's contributions to IPERS for the year ended June 30, 2021 were \$6,743,970.

Notes to Basic Financial Statements Year Ended June 30, 2021

Note 9. Retirement System (Continued)

Net Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions – At June 30, 2021, the District reported a liability of \$62,573,473 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's share of contributions to the pension plan relative to the contributions of all IPERS participating employers. At June 30, 2020, the District's collective proportion was 0.8907591 percent, which was a decrease of .002634 from its proportion measured as of June 30, 2019.

For the year ended June 30, 2021, the District recognized pension expense of \$10,077,792. At June 30, 2021, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

		Deferred		Deferred
		Outflows		Inflows
	of Resources of F		Resources	
Differences between expected and actual experience	\$	69,126	\$	(1,483,151)
Changes of assumptions		3,211,876		-
Net difference between projected and actual earnings				
on pension plan investments		3,517,624		-
Changes in proportion and differences between District				
contributions and proportionate share of contributions		1,334,078		(387,444)
District contributions subsequent to the measurement date		6,743,970		
Total	\$	14,876,674	\$	(1,870,595)

\$6,743,970 reported as deferred outflows of resources related to pensions resulting from the District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year	End	ed J	June	30,

2022	\$ 1,266,193
2023	1,603,894
2024	1,289,505
2025	2,069,697
2026	32,820
Thereafter	
Total	\$ 6,262,109

There were no non-employer contributing entities to IPERS.

Notes to Basic Financial Statements Year Ended June 30, 2021

Note 9. Retirement System (Continued)

<u>Actuarial Assumptions</u> – The total pension liability in the June 30, 2020 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Rate of Inflation	2.60 percent per annum
(effective June 30, 2017)	
Salary Increases	3.25 percent to 16.25 percent average, including
(effective June 30, 2017)	inflaction. Rates vary by membership group.
Investment rate of return	7.00 percent, compounded annually, net of investment expense.
(effective June 30, 2017)	including inflation
Wage growth	3.25 percent per annum, based on 2.60 percent
(effective June 30, 2017)	inflation and 0.65 percent real wage inflation

The actuarial assumptions used in the June 30, 2020 valuation were based on the results of actuarial an economic assumption study dated March 24, 2017 and a demographic assumption study dated June 28, 2018. Mortality rates were based on the RP-2014 Employee and Healthy Annuitant Tables with MP-2017 generational adjustments.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

		Long-Term
	Asset	Expected Real
Asset Class	Allocation	Rate of Return
Domestic equity	22.0%	4.43%
International equity	17.5%	5.15%
Global smart beta equity	6.0%	4.87%
Core plus fixed income	28.0%	-0.29%
Public credit	4.0%	2.29%
Cash	1.0%	-0.78%
Private equity	11.0%	6.54%
Private real assets	7.5%	4.48%
Private credit	3.0%	3.11%
Total	100%	

Notes to Basic Financial Statements Year Ended June 30, 2021

Note 9. Retirement System (Continued)

<u>Discount Rate</u> – The discount rate used to measure the total pension liability was 7.00 percent. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the contractually required rate and that contributions from the District will be made at contractually required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate – The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.00 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.00 percent) or 1-percentage-point higher (8.00 percent) than the current rate.

	1%	Discount	1%
	Decrease	Rate	Increase
	(6.0%)	(7.0%)	(8.0%)
District's proportionate share of the			
net pension liability	\$ 104,335,986	\$ 62,573,473	\$ 27,556,244

<u>Pension Plan Fiduciary Net Position</u> – Detailed information about the pension plan's fiduciary net position is available in the separately issued IPERS financial report which is available on IPERS' website at <u>www.ipers.org</u>.

<u>Payables to the Pension Plan</u> – At June 30, 2021, the District reported payables to the defined benefit pension plan of \$625,996 for legally required employer contributions and \$417,109 for legally required employee contributions which had been withheld from employee wages but not yet remitted to IPERS.

Note 10. Risk Management

The District is exposed to various risks of loss related to torts, theft; damage to and destruction of assets; errors and omissions; and natural disasters. These risks, except injuries to employees and claim payments for health, prescriptions and dental insurance, are covered by the purchase of commercial insurance. The District assumes liability for any deductibles and claims in excess of coverage limitations. Settled claims from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

The District has established an internal service fund to account for premium and claim payments for a self-insured group health insurance plan for the District's employees to meet potential losses from medical claims. Self-insurance is in effect up to an individual stop loss amount of \$100,000 and aggregate amount of 125 percent of expected claims. The District also self-insures for its dental plan. The dental plan includes no aggregate reinsurance.

Notes to Basic Financial Statements Year Ended June 30, 2021

Note 10. Risk Management (Continued)

Liabilities are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Claims payable include all known claims and an amount for claims that have been incurred but not reported (IBNR). Claim liabilities are estimated by considering the effects of inflation, recent claim settlement trends, including frequency and amount of pay-outs and other economic and social factors.

Changes in the balances of claims payable during the years ended June 30, 2021 and 2020 are as follows:

		Self-Insurance Fund			
	2021 2020			2020	
Claims payable, beginning of year	\$	3,000,000	\$	2,861,893	
Incurred claims (including IBNR and changes in estimates)		18,174,601		18,015,947	
Claim payments		18,174,601		17,877,840	
Claims payable, end of year	\$	3,000,000	\$	3,000,000	

Each participating fund makes payments to the self-insurance fund for amounts which are determined based on historical claims experience. Such payments are displayed on the financial statements as revenues and expenditures/expenses. There have been no significant reductions in insurance coverage from the prior year.

The District became self-insured for its workers' compensation exposures beginning in September 2005. Claims which are due and payable are recorded in the Management Fund, a governmental fund. In 2021, the District became commercially insured for workers compensation. The claim liability below represents the runout claims for the District's formally self-insured plan. Changes in the balances of claims liabilities for the years ended June 30, 2021 and 2020 are as follows:

	Workers Compensation				
	2021			2020	
Claims payable, beginning of year Incurred claims (including IBNR)	\$	105,000	\$	350,000	
Claim payments		40,000		245,000	
Claims payable, end of year	\$	65,000	\$	105,000	

Note 11. Area Education Agency

The District is required by the Code of Iowa to budget for its share of special education support, media and educational services provided through the local area education agency. The District's actual amount for this purpose totaled \$4,153,136 for the year ended June 30, 2021 and is recorded in the General Fund by making a memorandum adjusting entry to the financial statements.

Notes to Basic Financial Statements Year Ended June 30, 2021

Note 12. Commitments and Contingencies

As of June 30, 2021, the District is involved in various claims against the District that arise in the normal course of operations, which are covered by insurance. The outcome and eventual liability of the District, if any, from these claims and any unasserted claims is not known at this time; however, management does not believe they will be material to the basic financial statements.

The District has entered contract commitments with contractors for the completion of several construction projects. The total contract commitments are \$5,913,847 of which \$5,016,598 has been incurred as of June 30, 2021. The unpaid commitment balance is \$897,249. Revenue and general obligation bonds will provide funding for these future expenditures.

Note 13. Tax Abatements

Governmental Accounting Standards Board Statement No. 77 defines tax abatements as a reduction in tax revenues that results from an agreement between one or more governments and an individual or entity in which (a) one or more governments promise to forgo tax revenues to which they are entitled and (b) the individual or entity promises to take a specific action after the agreement has been entered into that contributes to economic development or otherwise benefits the governments or the citizens of those governments. Property tax revenues of the District were reduced by the following amounts for the year ended June 30, 2021 under tax abatement agreements of other entities:

Entity Tax Abatement Program		Amount of Tax Abated				
City of Clive, Iowa	f Clive, Iowa Urban renewal and economic development projects		124,191			
City of Urbandale, Iowa	Urban renewal and economic development projects		6,796			
City of West Des Moines, Iowa	Urban renewal and economic development projects		58,853			

The State of lowa reimburses the District an amount equivalent to the increment of valuation on which property tax is divided times \$5.40 per \$1,000 of taxable valuation. For the year ended June 30, 2021, this reimbursement amounted to \$54.013.

Note 14. New Governmental Accounting Standards Board (GASB) Statements

The District adopted the following statements during the year ended June 30, 2021:

GASB Statement No. 84, *Fiduciary Activities*: The objective of this Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. The focus of the identification criteria established by the Statement is on 1) whether a government is controlling the assets of the fiduciary activity and 2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities. An activity meeting the criteria should be reported as a fiduciary fund in the basic financial statements. This Statement also provides for recognition of a liability to the beneficiaries in a fiduciary fund when an event has occurred that compels the government to disburse fiduciary resources.

Notes to Basic Financial Statements Year Ended June 30, 2021

Note 14. New Governmental Accounting Standards Board (GASB) Statements (Continued)

GASB Statement No. 90, *Majority Equity Interest-An Amendment of GASB Statement No. 14 and No. 61*: The primary objectives of this Statement are to improve consistency and comparability of reporting a government's majority equity interest in a legally separate organization and to improve the relevance of financial statement information for certain component units. It defines a majority equity interest and specifies the reporting of a majority equity interest. This Statement also requires that a component unit in which a government has a 100 percent equity interest account for its assets, deferred outflows of resources, liabilities and deferred inflows of resources at acquisition value at the date the government acquired the 100 percent equity interest in the component unit.

GASB Statement No. 98, *The Annual Comprehensive Financial Report*. This Statement establishes the term *annual comprehensive financial report* and its acronym *ACFR*. This new term and acronym replace instances of *comprehensive annual financial* report and its acronym in generally accepted accounting principles for state and local governments. This Statement was development in response to concerns raised by stakeholders that the common pronunciation of the acronym for comprehensive annual financial report sounds like a profoundly objectional racial slur. This Statement's introduction of the new term is founded on a commitment to promoting inclusiveness.

The implementation of the above statements did not have a material impact on the District's Financial Statements.

As of June 30, 2021, GASB had issued several statements not yet required to be implemented by the District. The Statements which might impact the District are as follows:

GASB Statement No. 87, *Leases*, issued June 2017, will be effective for the District beginning with its fiscal year ending June 30, 2022. The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities.

GASB Statement No. 89, *Accounting for Interest Cost before the End of a Construction Period*, issued June 2018, will be effective for the District beginning with its fiscal year ending June 30, 2022. This Statement establishes accounting requirements for interest cost incurred before the end of a construction period. Such interest cost includes all interest that was previously accounted for in accordance with the requirements of paragraphs 5-22 of Statement No. 62, which are superseded by this Statement. This Statement requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statements prepared using the economic resources measurement focus. As a result, interest cost incurred before the end of a construction period will not be included in the historical cost of a capital asset reported in a business-type activity or an enterprise fund. This statement also reiterates that in financial statements prepared using the current financial resources measurement focus, interest cost incurred before the end of a construction period should be recognized as an expenditure on a basis consistent with governmental fund accounting principles.

Notes to Basic Financial Statements Year Ended June 30, 2021

Note 14. New Governmental Accounting Standards Board (GASB) Statements (Continued)

GASB Statement No. 91, *Conduit Debt Obligations*, issued May 2020, will be effective for the District beginning with its fiscal year ending June 30, 2023. This Statement clarifies the existing definition of a conduit debt obligation; establishing that a conduit debt obligation is not a liability of the issuer; establishing standards for accounting and financial reporting of additional commitments and voluntary commitments extended by issuers and arrangements association with conduit debt obligations; and improving required note disclosures. This Statement requires issuers to disclose general information about their conduit debt obligations organized by type of commitment, including the aggregate outstanding principal amount of the issuers' conduit debt obligations and a description of each type of commitment. Issuers that recognize liabilities related to supporting the debt service of conduit debt obligations also should disclose information about the amount recognized and how the liabilities changed during the reporting period.

GASB Statement No. 92, *Omnibus 2020*, issued January 2020, will be effective for the District beginning with its fiscal year ending June 30, 2022 except for the requirements related to the effective date of Statement No. 87 and Implementation Guide 2020-3, reinsurance recoveries, and terminology used to refer to derivative instruments are effective upon issuance. The objectives of this Statement are to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing practice issues that have been identified during implementation and application of certain GASB Statements. This Statement addresses a variety of topics including leases, intra-entity transfers, assets accumulated for postemployment benefits, applicability of Statement No. 84 to postemployment benefit arrangements, measurement of liabilities related to asset retirement obligations in a government acquisition, reporting by public entity risk pools for amounts that are recoverable from reinsurers or excess insurers, nonrecurring fair value measurements of assets or liabilities, and terminology to refer to derivative instruments.

GASB Statement No. 93, *Replacement of Interbank Offered Rates*, issued March 2020, will be effective for the District beginning with its fiscal year ending June 30, 2022. The objective of this Statement is to address those and other accounting and financial reporting implications that result from the replacement of an IBOR. This statement provides exceptions for certain hedging derivative instruments to the hedge accounting termination provisions when an IBOR is replaced as the reference rate of the hedging derivative instrument's variably payment, clarifies the hedge accounting termination provisions when a hedge item is amended to replace the reference rate, clarifies the uncertainty related to the continued availability of IBORS, removes LIBOR as an appropriate benchmark interest rate for qualitative evaluation, identifies a Secured Overnight Financing Rate and the Effective Federal Funds Rate as appropriate benchmark interest rates for the qualitative evaluation of the effectiveness of an interest rate swap, and clarifies the definition of reference rate, as it is used in Statement 53, as amended.

GASB Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*, issued March 2020, will be effective for the District beginning with its fiscal year ending June 30, 2023. The primary objective of this Statement is to improve financial reporting by addressing issues related to public-private and public-public partnership arrangements (PPPs). As used in this Statement, a PPP is an arrangement in which a government (the transferor) contracts with an operator (a governmental or nongovernmental entity) to provide public services by conveying control of the right to operate or use a nonfinancial asset, such as infrastructure or other capital asset (the underlying PPP asset), for a period of time in an exchange or exchange-like transaction. This Statement also provides guidance for accounting and financial reporting for availability payment arrangements (APAs). As defined in this Statement, an APA is an arrangement in which a government compensates an operator for services that may include designing, constructing, financing, maintaining, or operating an underlying nonfinancial asset for a period of time in an exchange or exchange-like transaction.

Notes to Basic Financial Statements Year Ended June 30, 2021

Note 14. New Governmental Accounting Standards Board (GASB) Statements (Continued)

GASB Statement No. 96, Subscription-Based Information Technology Arrangements, issued May 2020, will be effective for the District beginning will its fiscal year ending June 30, 2023. This Statement provides guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for government end users (governments). This Statement 1) defines a SBITA; 2) establishes that a SBITA results in a right-to-use subscription assets- an intangible assetand a corresponding subscription liability; 3) provides the capitalization criteria for outlays other than subscription payments, including implementation costs of a SBITA; and 4) requires note disclosures regarding a SBITA.

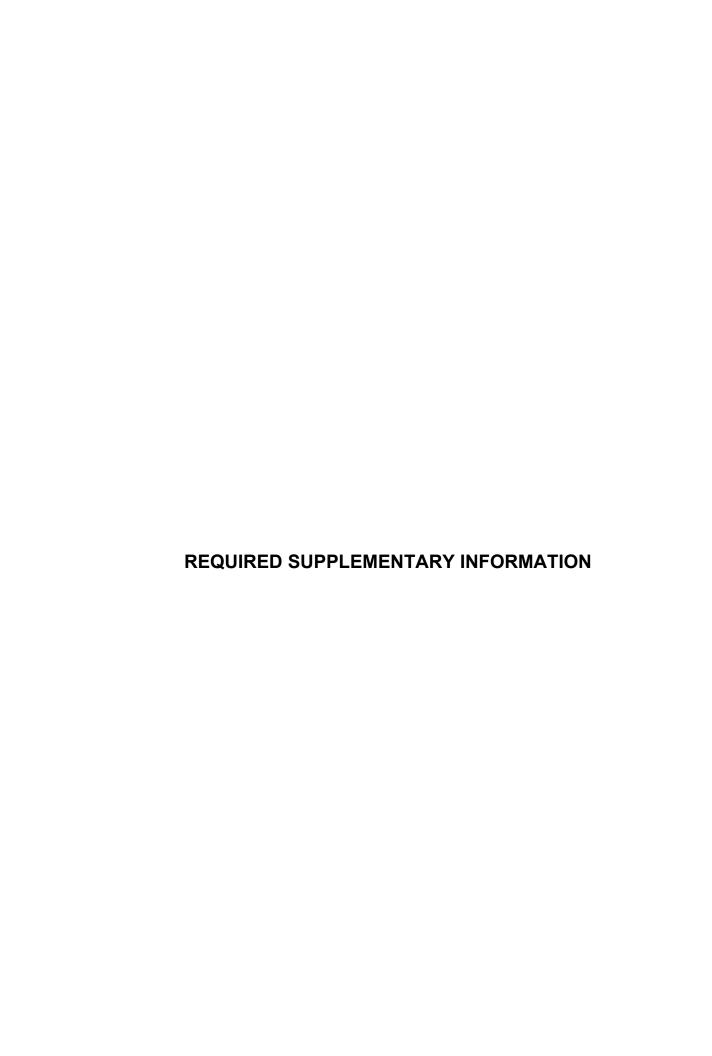

GASB Statement No. 97, Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans- an amendment of GASB Statements No. 14 and No. 84, and a supersession of GASB Statement No. 32, issued June 2020, will be effective for the District beginning with its fiscal year ending June 30, 2022. The primary objective of this Statement are to 1) increase consistency and comparability related to the reporting of fiduciary component units in circumstances in which a potential component unit does not have a governing board and the primary government performs the duties that a governing board typically would perform; 2) mitigate costs associated with the reporting of certain defined contribution pension plans, defined contribution other postemployment benefit (OPEB) plans, and employee benefit plans other than pension plans or OPEB plans (other employee benefit plans) as fiduciary component units in fiduciary fund financial statements; and 3) enhance the relevance, consistency, and comparability of the accounting and financial reporting for Internal Revenue Code (IRC) Section 457 deferred compensation plans (Section 457 plans) that meet the definition of a pension plan and for benefits provided through those plans.

The District's management has not yet determined the effect these Statements will have on the District's financial statements.

Note 15. Subsequent Events

The COVID-19 outbreak is disrupting business across a range of industries in the United States and financial markets have experienced a significant decline. As a result, local, regional and national economies, including that of the District, may be adversely impacted. The extent of the financial impact of COVID-19 will depend on future developments, including the duration and spread, which are uncertain and cannot be predicted. Due to the uncertainties surrounding the outbreak, management cannot presently estimate the potential impact on the District's operations and finances.

Total OPEB liability - beginning	17,767,186	32,384,000	28,853,182	26,822,614
Total OPEB liability - ending	\$ 19,895,385	\$ 17,767,186	\$ 32,384,000	\$ 28,853,182
Covered employee payroll	\$ 73,287,000	\$ 71,152,657	\$ 66,729,000	\$ 64,472,632
Total OPEB liability as a percentage of covered employee payroll	27%	25%	49%	45%

Notes to Schedule:

Changes of benefit terms:

The District changed their postemployment benefit by removing the explicit subsidy. The aggregate impact of plan changes to the total OPEB liability was a decrease of approximately \$2,593,000 to the total OPEB liability.

Changes of assumption:

Changes of assumptions or other inputs reflect a change in the discount rate. The following are the discount rates used in each period:

2.16%

2.21%

3.50%

3.87%

No assets are accumulated in a trust that meets the criteria in paragraph 4 of Statement No. 75

^{*} The schedule is intended to present information for ten years. Information prior to 2018 is not available.

Note to Required Supplementary Information

Note 1. Budgets and Budgetary Information

This budgetary comparison is presented as Required Supplementary Information in accordance with Governmental Accounting Standards Board Statement No. 41 for governments with significant budgetary perspective differences resulting from not being able to present budgetary comparisons for the General Fund and each major Special Revenue Fund.

In accordance with the Code of Iowa, the Board of Education annually adopts a budget following required public notice and hearing for all funds except internal service, private-purpose trust and agency funds. The budget may be amended during the year utilizing similar statutorily prescribed procedures. The District's budget is prepared on the accrual basis.

Formal and legal budgetary control for the certified budget is based upon four major classes or expenditures known as functions, not by fund or fund type. These four functions are instruction, support services, noninstructional programs and other expenditures. Although the budget document presents function expenditures or expenses by fund, the legal level of control is at the aggregated function level, not by fund. The Code of Iowa also provides that District expenditures in the General Fund may not exceed the amount authorized by the school finance formula. During the year, the District adopted one budget amendment increasing budgeted expenditures by \$12,065,182.

Note 2. Iowa Public Employees' Retirement System Pension Liability

Changes of benefit terms:

There are no significant changes in benefit terms.

Changes of assumptions:

The 2018 valuation implemented the following refinements as a result of a demographic assumption study dated June 28, 2018:

- Changed mortality assumptions to the RP-2014 mortality tables with mortality improvements modeled using Scale MP-2017.
- Adjusted retirement rates.
- Lowered disability rates.
- Adjusted the probability of a vested Regular member electing to receive a deferred benefit.
- Adjusted the merit component of the salary increase assumption.

The 2017 valuation implemented the following refinements as a result of an experience study dated March 24, 2017:

- Decreased the inflation assumption from 3.00% to 2.60%.
- Decreased the assumed rate of interest on member accounts from 3.75% to 3.50% per year.
- Decreased the discount rate from 7.50% to 7.00%.
- Decreased the wage growth assumption from 4.00% to 3.25%.
- Decreased the payroll growth assumption from 4.00% to 3.25%.

Note to Required Supplementary Information

Note 2. Iowa Public Employees' Retirement System Pension Liability (Continued)

The 2014 valuation implemented the following refinements as a result of quadrennial experience study:

- Decreased the inflation assumption from 3.25 percent to 3.00 percent.
- Decreased the assumed rate of interest on member accounts from 4.00 percent to 3.75 percent per year.
- Adjusted male mortality rates for retirees in the Regular membership group.
- Reduced retirement rates for sheriffs and deputies between the ages of 55 and 64.
- Moved from an open 30 year amortization period to a closed 30 year amortization period for the UAL beginning June 30, 2014. Each year thereafter, changes in the UAL from plan experience will be amortized on a separate closed 20 year period.

Note: The assessed values are determined as of January 1, of the prior fiscal year indicated. These assessed values are used to calculate the taxable values for the second budget following assessment date. For taxable values for the second budget following assessment date. For example the total assessed value of \$5,558,206,021 from January 1, 2007 is used for the taxable values for fiscal year 2009.

Gas and electric is not subject to property tax, but instead pay utility replacement taxes.

Note:

The District has certain restrictions on raising the property tax rate.

General Fund - the District's enrollment as well as District property value and state aid is formula calculated to determine the maximum amount of allowable funding.

Special Revenue Funds - The Special Revenue Fund, PPEL has a restriction from voters of \$1.00 and board imposed levy up to \$0.33.

^{*} Includes levies for operating and debt service costs.

⁽¹⁾ The tax expires December 31, 2029 for Dallas County and schools will receive revenues for only one-half of fiscal year 2030.

Fiscal Years 2015 through 2019 are projected by the Iowa Department of Education. Fiscal Year 2020-2030 assumes no growth.

⁽²⁾ The assumption for growth in retail sales is based on the 10 year growth of Taxable Sales of approximately 2.00%.

Estimated Future Tax Revenues (Unaudited)

Presented below is a table illustrating the estimated collections of the tax for the periods indicated, using the assumptions below:

Fiscal Year June 30:	Without Growth Estimated Collection (1)(3)	With Growth Estimated Collection (2)(3)
2016 \$	7,910,206	\$ 8,456,436
2017	7,910,206	8,610,354
2018	7,910,206	8,764,272
2019	7,910,206	8,927,244
2020	7,910,206	8,918,190
2021	7,910,206	8,918,190
2022	7,910,206	8,918,190
2023	7,910,206	8,918,190
2024	8,227,611	8,918,190
2025	8,227,611	8,918,190
2026	8,227,611	8,918,190
2027	8,227,611	8,918,190
2028	8,227,611	8,918,190
2029	8,227,611	8,918,190
2030	4,113,805	4,463,622

⁽¹⁾ FY2015 Tax Revenue is based on Iowa Department of Revenue estimates and includes a projection for the November 2014 reconciliation payment in the amount of \$400,551 which represents the remaining 5% of the collections estimated by the Iowa Department of Revenue.

⁽²⁾ The District projects future enrollment to remain stable at 9,054. Estimated growth in District's Tax Revenue is reflective of the projected increase in the Statewide Average Revenue Per Student as previously stated.

⁽³⁾ The Tax expires December 31, 2029 for Dallas County and schools will receive revenue for only one-half of the FY2030.

Projected Debt Service Coverage (Unaudited)

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With Government Auditing Standards

To the Board of Education West Des Moines Community School District West Des Moines, Iowa

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of West Des Moines Community School District (the District) as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated November 18, 2021.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of West Des Moines Community School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*. However, we noted certain immaterial instances of non-compliance or other matters which are described in Part II of the accompanying Schedule of Findings and Responses.

Comments involving statutory and other legal matters about the District's operations for the year ended June 30, 2021 are based exclusively on knowledge obtained from procedures performed during our audit of the financial statements of the District. Since our audit was based on tests and samples, not all transactions that might have had an impact on the comments were necessarily audited. The comments involving statutory and other legal matters are not intended to constitute legal interpretations of those statutes.

District's Response to Finding

Bohnsack & frommelt LLP

The District's response to the findings identified in our audit are described in the accompanying Schedule of Findings and Responses. The District's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Moline, Illinois November 18, 2021

Schedule of Findings and Responses Year Ended June 30, 2021

Part I: Findings Related to the Basic Financial Statements

Instances of noncompliance:

No matters were reported.

Internal control deficiencies:

No matters were reported.

Part II: Other Findings Related to Statutory Reporting

- **II-A-21** Certified Budget: Expenditures for the year ended June 30, 2021 did not exceed the amounts budgeted
- **II-B-21 -** Questionable Expenditures: There were no expenditures noted that may not meet the requirements of public purpose as defined in an Attorney General's opinion dated April 25, 1979.
- **II-C-21 -** <u>Travel Expense</u>: No expenditures of District money for travel expenses of spouses of District officials or employees were noted. No travel advances to District officials or employees were noted.
- **II-D-21 -** <u>Business Transactions</u>: No business transactions between the District and District officials or employees were noted except for the following:

The District incurred \$53,620 in expenditures to Drake University. Board Member Jill Johnson is an employee of Drake University and abstains from voting on the transactions.

The District incurred \$2,655 in expenditures to Please Pass the Love. Board Member Jennifer Ulie-Wells is the executive director of the nonprofit and abstains from voting on the transactions.

In accordance with the Attorney General's opinion dated November 9, 1976, the transactions do not appear to represent a conflict of interest.

- **II-E-21-** Restricted Donor Activity: No transactions were noted between the District, District officials or District employees and restricted donors in compliance with Chapter 68B of the Code of Iowa.
- **II-F-21-** <u>Bond Coverage</u>: Surety bond coverage of District officials and employees is in accordance with statutory provisions. The amount of coverage should be reviewed annually to ensure the coverage is adequate for current operations.
- **II-G-21** <u>Board Minutes</u>: No transactions requiring Board approval which had not been approved by the Board were noted.

II-H-21 - Certified Enrollment:

Finding: The District identified variances in certified enrollment certified to the state in October 2020.

Recommendation: We recommend the District review certified enrollment data for accuracy prior to submission to the state.

Response and Correction Action Plan: The District will continue to review data prior to submission. Unfortunately, facts are learned after certification date that result in required adjustments.

Conclusion: Response accepted.

Schedule of Findings and Responses Year Ended June 30, 2021

II-I-21 - Supplementary Weighting:

Finding: The District identified variances in supplementary weighting certified to the state in October 2020.

Recommendation: We recommend the District review supplementary weighting for accuracy prior to submission to the state.

Response and Correction Action Plan: The District will continue to review data prior to submission.

Conclusion: Response accepted.

- **II-J-21** <u>Deposits and Investments</u>: No instances of non-compliance with the deposit and investment provisions of Chapter 12B and Chapter 12C of the Code of Iowa and the District's investment policy were noted.
- **II-K-21** <u>Certified Annual Report</u>: The certified annual report was certified timely to the lowa Department of Education.
- **II-L-21 -** <u>Categorical Funding</u>: No instances of categorical funding being used to supplant rather than supplement other funds were noted.
- **II-M-21** <u>Statewide Sales and Services Tax</u>: No instances of noncompliance with the use of the statewide sales and services tax revenue provisions of Chapter 423F.3 of the Code of Iowa were noted. Pursuant to Chapter 423F.5 of the Code of Iowa, the annual audit is required to include certain reporting elements related to the statewide sales and services tax revenue. Districts are required to include these reporting elements in the Certified Annual Report (CAR) submitted to the Iowa Department of Education. For the year ended June 30, 2021, the District reported the following information regarding the statewide sales and services tax revenue in the District's CAR:

Beginning balance		\$	6,950,127
Revenues/other financing sources:			
Statewide sales and services tax revenue	\$ 8,973,645		
Investment earnings	105,836		
Other local sources	131,000		
Transfers in	 58,425,870		67,636,351
Expenditures/other financing uses:		•'	
Instruction	2,049,986		
Support services	417,562		
Transfers out, debt service	2,989,898		
School infrastructure:			
Buildings	8,855,300		14,312,746
Ending balance		\$	60,273,732

For the year ended June 30, 2021, the District reduced the tax levy by not having a debt service levy of \$1.67 per \$1000 of taxable valuation as a result of the moneys received under Chapter 423E or 423F of the Code of Iowa.
